No. 535 /HOPCB/ERC/2019

Bhopal, Dt: 15 / 10 /2019

To,

The Director / Head
Forbes Marshall Pvt. Ltd.
P B # 29, Mumbai-Pune Road
Kasarwadi, Pune - 411 034 (M.S.)

Sub : Hindrance in Execution of RTM Project due to Unethical Practices.

The M.P. Pollution Control Board has developed a Central Server Software (CSS) to provide a unified web-based access-controlled platform. The Central Server provides a multi-client open-architecture platform that supports any analyzer (make and model) on a single integrated Central database system.

All requisite tools and technical support have been extended to the industries and their Service Providers to synchronize the real-time monitoring (RTM) data with the CSS. Most of the industries have already switched to CSS system and providing the real-time monitoring data on continuous basis under 'self monitoring of compliance programme'.

It has been brought to my notice that despite several reminders, and extending all possible technical support, your firm has not attended the matter and has not been supportive in extending cooperation to the client industries in the State of Madhya Pradesh. This appears to be a deliberate attempt from your end to impede the progress of real-time monitoring programme in the State which is unjust and unfair. During the last vendors' meet on 24.08.2018 at Bhopal it was categorically mentioned that the MPPCB will not tolerance anyone found engaged in any unethical practice or with negligent professional behaviour and such vendors may not be welcomed in the State.

You are expected to understand the severity of this environment related issue and attend it on priority without any delay to avoid any unpleasant action against your firm.
