No. 1596 /HOPCB/ERC/2022

Bhopal, Dt: 28/10 /2022

To,

**The Chief Executive Officer
Smart City Development Corporation Limited,
Bhopal /Gwalior/Indore/Jabalpur/
Sagar/Satna/ Ujjain (M.P.)**

Sub: Sharing and Integration of CAAQMS data on SCDCL Platform in the State.

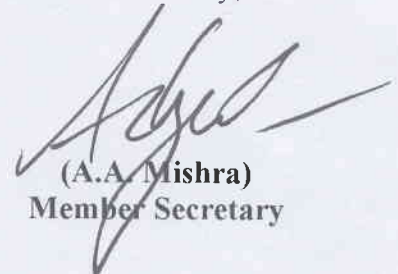

Ref. : Commemoration of Madhya Pradesh Foundation Day and Awareness Programmes.

Degradation of environment and depletion of resources are among the prime global concerns at present. The Madhya Pradesh Government has taken note of it and has initiated concrete moves in this direction for the conservation and restoration of environment in the State. The awareness campaign among the masses for environment related issues is one of the initiatives taken in this regard. A wider campaign against the single use plastic, open garbage burning, air pollution, noise pollution, restoration of quality of rivers and other water bodies etc is being launched across the State to meet the objectives of Cleanliness Mission of GoI. It is also planned to make people aware about the quality of air in their surrounding and the level of noise in various areas of the city for the benefit of citizens' from health point of view.

Seven of the Madhya Pradesh cities, viz. Bhopal, Gwalior, Indore, Jabalpur, Sagar, Satna and Ujjain, have been selected to be developed as Smart Cities under National Smart City Mission and there is satisfactory work progress on the card. The installation of smart LED display panels is also among various works completed in the designated Cities under the Smart City Project. The use of these display panels for creating awareness among the citizens would be helpful in meeting the goals in a better way. The display of awareness information would follow the lines and cover the themes as stated above.

In view of above the M.P. Pollution Control Board would like to integrate the real time environment information on LED panels of Smart Cities for streaming and display. It is, therefore, urged to provide the contact details of your Nodal officer/IT personnel for necessary coordination and to expedite the process for timely accomplishment of task. An early reply, in the larger interest of citizens and the environment, is thankfully anticipated.

Yours Faithfully,

(A.A. Mishra)
Member Secretary
