Sub : Installation of RTM Systems by Industries generating >100 KLD W/W.

Ref. : Review Meeting at HO, Chaired by M.S., MPPCB, dated 10.11.2025.

As per 'self monitoring of compliance' scheme, initiated by the MoEF&CC, GoI all the target water polluting industries, viz. 17 category industries, Red category industries, CBWTFs, CETPs, CTSDFs, CMSWMFs and STPs are required to install real-time monitoring systems, viz. CEQMS or IP-PTZ camera and Flow meter in line with the stipulated criteria to strengthen the monitoring system for effective compliance.

It has been decided to widen the scope and cover other industries and establishments also which are likely to pollute the environment. Under this, all the industries that are generating more than 100 KLD effluent may be tracked under your jurisdiction and pursued for early compliance, by installing requisite real-time monitoring system, and establish connectivity of the same with Central server at Environment Surveillance Centre (ESC), MPPCB for transmission of real-time data for surveillance purpose.

A tentative list of industries generating >100 KLD effluent under your jurisdiction is attached herewith for ready reference and early needful action. A compliance report in this regard be submitted to the ESC within 30 days of issuance of this letter. The ESC may be contacted for any relevant technical support.
