**Sub : Commissioning of Remote Calibration Check Portal for gaseous parameters of CEMS and CAAQMS.**

Ref. : CPCB letter No. C-12011/33/2017-18/Tech, dated 13.04.2018.

With the objective of enhancing transparency and ensuring the accuracy of real-time environmental data, the MPPCB has developed and launched the 'Remote Calibration Portal' to facilitate industries for remote calibration of gaseous parameters for Continuous Emission Monitoring Systems (CEMS) and Continuous Ambient Air Quality Monitoring Stations (CAAQMS) installed at their premises. The CPCB, vide referred letter, has also mandated for the target industries to establish remote calibration facility at each gaseous OCEMS:

In view of above it is requested to sensitize the industries under your jurisdiction to make use of this new Portal facility, <https://erc.mp.gov.in/Home/Esrc3bb31>, for scheduling calibration check time as per their convenience by picking the available time slot.

The portal will allow industries to register, select the preferred dates and book time slots, thereby eliminating manual scheduling conflicts and ensuring standardized calibration protocols. Copy of users' manual can be referred at <https://erc.mp.gov.in/Home/Esrc3bb31> for ready reference and for ease in functioning.
