**Sub: Information about 17 category and Red category industries.**

Ref. : Installation of IP-Cameras for Real-time Remote Surveillance.

There is need to expand the network of real-time remote surveillance of industries in order to avoid undue human interference in the industrial operations. Installation of IP-Cameras at strategic locations in the industry premises is one of the options available. The HQ is examining the technology which would be best suited for this purpose.

All the 17 cagories of industries and Red category industries with significant pollution potential are to be targeted in the first phase, hence you are requested to provide the list of all the targeted industries, falling under your jurisdiction, to the undersigned within 07 days time, preferably by e.mail, to help us in preparation of Tender document and work out other modalities. You are also requested to guide the industries regarding number of cameras and their installation at the suitable location in their premises to serve our basic purpose.

An early reply from your end is thankfully anticipated.

Yours Faithfully,

Issued under instructions of Member Secy.

**(Dr. Reeta Kori)  
Chief Scientific Officer**
