**Sub: Identification of sites for expansion of National Ambient Noise Monitoring Network.**

**Ref. : C.P.C.B. letter no. A-19014/50/09-Mon/4911 dated 22.09.2016.**

The Central Pollution Control Board (CPCB) intends to expand the existing Ambient Noise Monitoring Stations in the country and has selected four cities in the State, viz. Bhopal, Indore, Gwalior and Jabalpur, for this purpose. Each city is to have 04 noise monitoring stations.

In view of above it is requested to identify the locations of 04 stations with co-ordinates considering each station in industrial, commercial, residential and silence zone in city falling under your jurisdiction and appraise the HQ at earliest. A map showing monitoring locations and photograph of site is also desired by the CPCB.

As the issue is related with national programme you are expected to take this on priority and send the requisite information at earliest, preferably by e.mail to avoid postal delay.

Yours Faithfully,
